

Hosted Exchange

Move away from costly on-premise servers; access and share important, up-to-date information in your emails, calendars and contacts instantly, whenever and wherever you need it. Enjoy more secure, efficient and cost-effective collaboration across your business via our subscription-based managed remote servers within the cloud.

How Hosted Exchange works

Your emails, calendars and contacts will be stored and delivered via the best ISO 27001-accredited Tier 3+ UK data centres with enhanced network security fronted by multiple resilient firewalls to provide unparalleled privacy, protection and availability of your data. All mailbox connections transmit data using 2048-bit SSL encryption for maximum security.

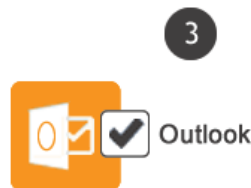

Take advantage of our FREE migration consultation with our Cloud specialist team. We'll develop a seamless, hassle-free migration plan with you, completely managed by us from start to finish. Straightforward and simple to set up, tailor-make your Hosted Exchange service and start experiencing better collaboration today.

1
Sign up for Cloud Productivity

2
Select how many mailboxes you need

3
Add optional Outlook licences, resource mailboxes

4
Seamlessly migrate your existing email

How Hosted Exchange will benefit your business

Reduce infrastructure costs	A monthly subscription-based service that eliminates expensive annual licences and the capital and operational costs associated with on-premise email servers. We take care of the system management and maintenance so you don't have to.
100% Symantec security	With AntiVirus protection on all inbound, outbound and internal emails, plus full AntiSpam detection included as standard, the content and delivery of your email is safe.
Automatic backup	If you accidentally lose or delete an email, all mailboxes are automatically backed up and retrievable for up to 90 days, enabling your business to continue working in the event of any problem.
Flexible 100GB storage	Industry-leading mailbox size enabling you to comfortably manage all your emails and attachments in one place.
Outlook 2013 licences	Seamlessly sync emails, calendars and tasks with other applications such as Lync and Sharepoint to enable quicker decision making throughout your business.
Bespoke mailbox configuration	Build your own combination of mailboxes depending on user need for collaboration and sharing functionality. Manage and utilise business resources such as meeting rooms or shared equipment more efficiently by giving each a dedicated resource mailbox.
Advanced mailbox management	The flexibility of the KCOM Productivity Console enables you to mix Hosted Exchange MAPI and Hosted Exchange Lite POP mailboxes, add or edit users and grant mobile access – scale up or down as your business needs change.
Work anywhere, anytime	Instantly access up-to-date email, calendars and contacts on the move via Activesync on iPhone, Android, Blackberry 10 and Windows Mobile and through web browser via the Outlook Web App (OWA).

Pricing
